

# COMPOSIT

LE CUCINE DELLA VITA

**Contemporary Italian kitchens designed around your lifestyle.** Composit Kitchens Company was established to help you make the process of purchasing a new kitchen clear and easy to understand and to introduce you to our quality range of kitchen products and services from Italy.

**We design, supply and install high quality Italian kitchens throughout New Zealand.** A background in design rather than sales means we offer a true design service. Many kitchen manufacturers produce very good quality kitchen cabinets and it is often the design element that sets apart a good kitchen from a bad one.

**Experience:** Mark Graham set up Composit Kitchens Limited in 2009, with [8 years experience in the UK and here in New Zealand](#), Mark was frustrated by the high cost of some European kitchens sold in New Zealand, the misconception that kitchens from abroad are expensive, and the poor designs offered by some of the domestic kitchen suppliers.

**Composit Kitchens was set up to improve the quality and design of kitchens in architectural and residential projects.**

The Composit kitchen range includes [Melograno](#), [Mya](#), [Manhattan](#), [Free](#), [Maxima](#), [Making](#), [Mida](#), [Mythos](#) and [Master](#). (Click to view each range)

**Product:** Composit Kitchens specialises in the **design and import of Italian kitchens** for your multi housing projects and private homes, and we are based in Auckland. Composit Kitchens offers fine contemporary Italian designed kitchens created by some of the finest Italian architects and designers.

Composit Italian kitchens are manufactured using the latest technology, [materials](#) and the highest quality standards you can expect from an international kitchen brand. We have the perfect kitchen finish for your design: a full range of laminates & mat and glossy lacquers, bright acrylic, wood veneers, glossy wood veneer, glass, Stainless Steel. All kitchen cabinets arrive from Italy to the customer fully assembled and ready to be installed.

**Composit S.p.A History:** Composit was established in 1974 by the Belligotti brothers, who had already set up a company in the 60s for furnishing the home, with the [Belligotti](#) brand of furniture.

Our aim is to provide a level of design, quality and service that is not available anywhere else. We also aim to provide all this at a competitive price by keeping overheads low.

**When you come to Composit Kitchens, do not expect the hard sell.**

LEB and version [IRROLEB](#) waterproof panels represent the lowest ecological issue in the world, made of 100% post-consumer wood material with FSC-certified and formaldehyde emission values even lower than the limits imposed by Regulation F\*\*\*\* (4 star rating).

LEB and IDROLEB are the reflection of a revolutionary material: perfect synthesis of environmental protection and care for the health of consumers. A new model, a new standard the highest level achieve so far by technology Environment & Health.
